IT'S A PLAN: 11TH GRADE CHECKLISTS

Junior year is key to help students do their best in school and refine their college options. In order to support 11th graders, Oregon GEAR UP created a series of comprehensive checklists for educators, students and families that address key behaviors and action items that will help students make a plan for their future.

INSTRUCTIONS

1. **Get a team.** It's important to provide a network of support. Include administrators, teachers, parents and students to help share these messages.
2. **Make a communications plan.** Determine when and how you will share information to students and families; consider more than one method. Make sure you have students and families cell phone numbers, e-mails or mailing addresses if you plan to communicate in those ways.
3. **Download and print** the checklists and any additional resources here: oregongoestocollege.org/downloads
